

# Internal / External Premium SSD

## HAVE YOUR CAKE AND EAT IT TOO

The Unirex SSD Premium SSD with SSD Reader you have both an internal and external SSD. Get all the benefits of faster boot ups, application responses and shut downs when installed as an internal drive and then take it out of your lap top and use it as an external drive that delivers speeds up to 500MBPS.

## TRANSFER/VIEW FILES ON MULTIPLE DEVICES

As long as a device has a USB port you can connect your SSD to it and view and transfer files. Install your SSD into your main lap top to get all the benefits of an SSD, but instead of transferring files from your lap top to a USB drive, pop out the SSD and slide it into the reader and transfer files between devices at speeds more than 5 x of USB 3.0 Flash Drives

## SO EASY, ANYONE CAN USE IT

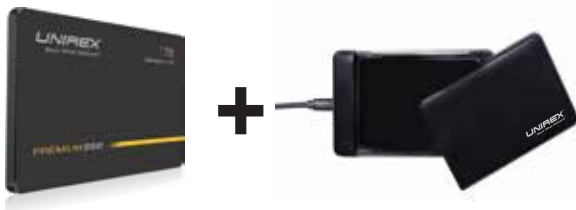

As long as you know how to plug in a USB connector to a USB port, you can make your internal SSD an External SSD.

## TAKE YOUR SSD WITH YOU

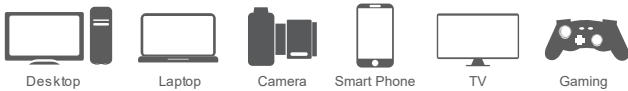

The Unirex SSD Reader gives you the ability to take your SSD drive anywhere. Going on a vacation? Slide your SSD into the USSD-301 and plug it into your camera. You can now enjoy all the benefits of your SSD anywhere you go!
